

To all customers of La Spezia Container Terminal SpA

La Spezia, March 21st, 2026

Ongoing Contingencies Related to the Middle East Crisis and Effects on Energy Supply

Dear All,

In consideration of the ongoing geopolitical instability in the Middle East and resulting disruptions affecting maritime traffic across the Gulf region, La Spezia Container Terminal (LSCT) wishes to inform its customers and partners that it is closely and continuously monitoring the evolution of the circumstances, together with its potential impacts on port operations and broader supply chain dynamics.

Should the current disruptions persist or escalate, particular attention will be directed towards developments in the energy supply market, which is already experiencing heightened volatility and significant cost fluctuations across the industry.

Given this evolving scenario, LSCT reserves the right to adopt any measures deemed necessary to safeguard the sustainability and continuity of its operations, especially considering that energy supply represents a critical and structurally relevant component of the terminal's cost base.

At the same time, LSCT remains firmly committed to supporting the integrity and resilience of global supply chains routed via La Spezia, and to providing reliable, uninterrupted service to its valued customers throughout this period of uncertainty.

Further updates will be issued in due course.

The Customer Service and Commercial teams remain at your full disposal for any clarification or assistance.

Thank you for your continued trust and cooperation.

Kind regards,
LSCT Customer Service
